## **What's Next?**

Weekly Deep Breath activities with participants will continue across the partner countries, while partners prepare local green sport actions and activities linked to the European Week of Sport.

## **From Training to Action: Deep Breath Program Enters Step 2**

The first step of the Deep Breath Program was completed at the end of June 2026. During this six-month period, coaches across the partner countries took part in structured training focusing on addiction and recovery, psychological approaches, effective communication, social inclusion through sport, conflict management and inclusive coaching methods.

From July 2026, the project moves into its second step. Trained coaches will now work directly with participants through regular sport, physical activity, social activities and individual guidance, supporting healthier lifestyles, social inclusion and recovery.

## **Partners Meet in Struga**

Project representatives met in Struga, North Macedonia, for the second International Project Meeting. Partners evaluated the first step of the Deep Breath Program, exchanged experiences and coordinated the transition to Step 2. The meeting also provided an opportunity to discuss local sustainability actions and the development of the Deep Breath cooperation network.
